Haru Sushi - Philadelphia writes...

Located in the heart of Old City Philadelphia, one cannot help but feel welcome. As the sushi chefs bellow out their Japanese greetings & slice ultra-fresh pieces of sushi & sashimi into extra large cuts, you know you're in the right place. With an extensive menu with roots in Japanese tradition is fused with a contemporary flair, Haru has become the standard bearer for Japanese Fusion Cuisine throughout Manhattan & now their vision is in Philadelphia. The food isn't the only wonderful part of Haru.

Once inside just look around to see the stunning design of the main dining room. Complete with soaring vaulted ceilings & a glass wall of candles that crowns the downstairs bar the room is finished off in classic style with wood & leather. Before leaving it is a must to head upstairs to the sleek & intimate lounge to sample one of the many colorful & delicious specialty cocktails. This chic spot to be seen is available for special & private events any time of the year.
